

## Intent to Graduate with Department Distinction

Student Name: \_\_\_\_\_

Faculty Mentor: \_\_\_\_\_

Course (circle one): 495S   none

Frequency of student-mentor regular meetings: \_\_\_\_\_

The student and faculty mentor understand that graduation with department distinction requires the student to pass a senior thesis defense examination. The defense committee will consist of three physics faculty members with the faculty mentor serving as Chair. This three-member committee will determine whether the work done by the student and the student's demonstrated understanding of the physics relevant to the project meet the department's standards for graduation with distinction.
